

What is claimed is:

1. A pipe for water pipe and the like comprising:

a pipe body which is used for water pipe, supply-pipe, drainage pipe and the like;

5 and

a mixed layer, providing at an inner surface of the pipe body, mixing a mixture including powder of tourmaline ore, granite and the like and charcoal grain powder with effects for far-infrared ray and anion.

2. A pipe for water pipe and the like according to claim 1, wherein the mixed layer

10 includes a mortar layer and a resin layer which are mixed the mixture including powder of tourmaline ore, granite and the like and charcoal grain powder with effects for far-infrared ray and anion.

3. A pipe for water pipe and the like according to claim 1, wherein the mixed layer

includes a mortar layer which is mixed the mixture including powder of tourmaline ore,
15 granite and the like and charcoal grain powder with effects for far-infrared ray and anion.

4. A pipe for water pipe and the like according to claim 1, wherein the mixed layer

includes a resin layer which is mixed the mixture including powder of tourmaline ore, granite and the like and charcoal grain powder with effects for far-infrared ray and
20 anion.

5. A pipe for water pipe and the like comprising:

a pipe body which is used for water pipe, supply-pipe, drainage pipe and the like;

and

a mixture, including powder of tourmaline ore, granite and the like and charcoal

25 grain powder with effects for far-infrared ray and anion, mixing to the material of the pipe body.
